

NEW

Ignite on FHIR[®]

is now available

On-point patient education, at the point of care

Ignite on FHIR is a flexible, time-saving application that fuels patient engagement using Healthwise and/or Krames content. It's now integrated with our hospital system for a seamless clinical workflow.

Use Ignite on FHIR to:

Deliver Ignite On-Demand[®] patient education via MyChart[®] or in print.

Access continuously updated patient education developed using best-in-class and evidence-based methodologies.

View the dates of education materials that the patient has previously received.

Customize the user experience per your preferences.

Implement workflow enhancements, such as content suggestions per the patient's health history, resource or favorite tagging, and folder access.

Not sure where to start?

Help is available online, by phone, or in person.
